

## All We Do Are APUs

- We Design It
- We Build It
- We Service It
- We Guarantee It
- We Finance It

Other companies might offer financing through a third-party or bank, but we believe in Dynasys so strongly that we self-finance APUs in order to make them more accessible to you.

## Dynasys Features & Benefits

At Hodyon, Inc. (manufacturer of the award-winning Dynasys APU), we believe in our product so strongly that we started our own financing company, with the goal of making APUs accessible to all owner operators, who are the foundation of our industry. While the initial cost of purchasing an APU can be daunting, owning one will immediately save you money in both fuel costs and engine wear-and-tear. The Dynasys payment program significantly reduces, and in many cases, removes the upfront cost of owning an APU.

- **Flexible payment options** - Monthly payment is only 40%-55% of fuel savings
- **Money in your pocket!** - By installing a Dynasys APU, you can put up to \$400 of fuel savings in your pocket every month (even after lease payment)
- **Easy qualification process** - Leases available for all credit scores
