

HODYON ANNOUNCES MILESTONE WITH SIGNING OF 30TH APU DEALER LOCATION IN NORTH AMERICA

Kenworth of Wisconsin's five locations become latest Dynasys APU dealer

(Austin, Texas, September 10, 2010) – Hodyon, a manufacturer and distributor of energy-efficient products and systems that reduce the magnitude of climate change, announced today that Kenworth of Wisconsin has become a certified dealer for the Dynasys APU program. Dynasys is an environmentally responsible solution for reducing carbon emissions as a result of over-the-road truck idling.

With all 5 Kenworth of Wisconsin locations participating in the program, Hodyon now has 30 dealer locations nationwide. The company anticipated opening up its 30th location during the fourth quarter of 2010 as a part of its goal to have 100 locations, but the tremendous response to Hodyon's dealer program has exceeded its expectations.

"We are extremely proud to announce that we have developed a relationship with another partner who believes in the quality and performance of the Dynasys system," said David Hancock, CEO of Hodyon. "It is exciting to partner with strong, well-established companies who recognize the value proposition of the Dynasys system. Based on our initial success in securing new dealers, I am very optimistic we will achieve our target goal of 100 dealers in North America by the end of 2011."

About Hodyon

Hodyon is a manufacturer and distributor of energy-efficient products and systems that reduce the magnitude of climate change. The company is ISO 9001:2008 certified, a two-time award winner for growth from Inc. magazine, the 59th fastest growing manufacturer in the US and, according to the Austin Business Journal, the 17th fastest growing company in Austin, Texas.
